## SKILLS

- Cybersecurity Basics
- Ethical Hacking Basics
- Web Designing Basic
- Game Development Basic
- Smart city
- Speach/Personation

## PROJECTS

- **Student Attendance Tracker**                                 **(Nov 2025)**

  Built an online attendance system where teachers can easily search student names, mark attendance and manage records without manual registers. Designed the full interface using HTML, CSS and JavaScript to make it simple and fast to use.

- **Movie Finder**                                               **(Oct 2025)**

  Created a website that helps users search movies, explore details and check where each movie is available to watch online. Developed using HTML, CSS and JavaScript with a focus on smooth search experience and clean layout.

- **Football Game 2D**                                           **(Aug 2025)**

  Developed a simple 2D football game where anyone can play easily with basic controls. Designed gameplay, movement and interface using HTML, CSS and JavaScript to make it smooth, fun and interactive.

- **3D Scrolling Website**                                       **(July 2025)**

  Made a visually engaging scrolling website with live-moving backgrounds and animated elements using HTML, CSS, JavaScript and basic WebGL effects. Focused on improving user experience through smooth transitions and creative 3D visuals.

## Certificate

- NPTEL [Artificial Intelligence in Industrial and Management Engineering] Scored **(53%)**.
- 5-Day AI Agents Intensive Course with Google
